Restores the Voice of a Dumb Girl.

A Queer Incident of the Earthquake That Lightens the Heart of an Army Officer's Daughter.

The Catholic Knights Have a Banquet and River Excursion at Evansville.

IT WAS STRANGE.

A Young Lady Recovers Her Voice During the Earthquake.

NEW YORK, Sept. 8.—A Savannah, Georgia, special says: "A strange incident of last week's earthquake shock is the recovery of the power of speech by Miss Mamie Martus, daughter of a retired officer of the regular army. At the close of the war her father was put in charge of Forts Pulaski and Jackson, below this city. While at the former fort his daughter had an attack of meningitis, which left her voiceless. She was dumb but had all the other senses. During the excitement of the earthquake shock last Tuesday night, she attempted to call her brother. He was frightened himself when he heard her whisper his name. Since then she has gradually regained her voice and now talks with perfect fluency. City physicians are deeply interested in the case. Their explanation is that recovery is due to the intense mental excitement."

THE PORTE

CONSTANTINOPLE, Sept. 8.—The porte has sent a note to the powers praying them to prevent a foreign military occupation of Bulgaria.

The Catholic Knights.

EVANSVILLE, Ind., Sept. 8.—The fourth Indiana state council of Catholic Knights of America opened yesterday morning with a grand parade, marching through the principal streets to the Church of the Assumption, where high mass was sung by Father E. T. Barron, and a sermon delivered by Father Rowan. After mass the delegates marched to Assumption hall, and the council convened. A large number of delegates from various portions of the state are in attendance. They were treated to an excursion and banquet on the steamer Idlewild last evening.

IN THE COURTS.

The LaGrange County Political Muss in the Hands of Uncle Sam.

MR. OTIS L. BALLON, the anti Lowry politician of LaGrange, has instituted suit in the federal court against Postmaster Frank Snyder for the recovery of a letter sent to "O. L. Ballon, chairman of the LaGrange county democratic committee." It seems Snyder recognized John Kimmel, a Lowry man, as chairman, and to him sent all the democratic mail. At that time Ballon had claims on the position and there was a contest for the honor, which is much coveted in that village of faction fights. Ballon sues for the letter referred to and \$100 damages from Snyder. This takes the matter into the United States courts and the rival statesmen will have war to the end.

Special Delivery.

The new law extending the special delivery system to all postoffices in the United States will go into effect Oct. 1. Under this law every postmaster will be held responsible for the prompt delivery of all mail matter bearing a special delivery stamp received at the office between the hours of seven a. m., and seven p. m., Sundays excepted. The postmaster will not be required to deliver mail beyond the distance of a mile from the postoffice. The postmaster will be at liberty, however, to make such delivery beyond the limits prescribed, for which he is to receive compensation. Parcels bearing the special delivery stamp must also bear the usual postage stamp or such matter will otherwise be held at the office for postage.

The case against Charley Straack for murderous assault has been dismissed by Justice Ryan.

CRUSHED HIS SKULL.

Ferdinand Shust, a Prominent Young Man, is Instantly Killed.

Ferdinand Shust was possibly twenty-five years of age. About two years ago he married a young lady at Rochester, N. Y., and began life with the brightest prospects. He was then assistant ticket agent to Mr. J. M. McConnell, at the Wabash depot. A month ago he quit and entered the service of A. D. Cressler, at the Kerr Murray foundry. This afternoon he was assisting a gang of men in putting up a huge iron tank. Suddenly the heavy iron toppled and an immense plate fell on Shust, striking him to the floor and crushing the right side of his skull to a jelly. As soon as the horrified workmen could, the iron was lifted from his lifeless body and the remains were sent to Peltier's mortuary rooms, for burial preparation. Shust's young wife fainted away when the awful news was conveyed to her and although neighbors are trying to soothe her grief, she is almost a maniac. Mr. Shust lived on West Jefferson street, and was well known and liked by everybody. There were three or four other workmen injured, one of them named Mack, quite severely. He lives on Hoffman street.

GET AT IT.

A Week of Sport and Rare Sights Assured Us.

Next week is fair week and everybody wants to know and recognize that fact. This year the directors are experimenting on an increase of premiums and larger purses for racing. It will rest with the citizens of Fort Wayne and Allen county whether the fair this year shall prove a success or not. If the efforts of the directors are not sustained by the patronage of the citizens it is doubtful if in coming years Allen county will have a fair association. The books of the secretary are now open for entries and everybody is invited and expected to enter any article or animal worthy of exhibition. The merchants should at once make application for space in the different halls to exhibit their goods. The owners of stock should apply for stall room. In fact, let every one get ready either to exhibit or attend.

YOUNG RACERS.

Seven Entries for the Colt Race to be Trotted at the Fair.

The following is a list of the entries for the three-year-old colt races to be trotted at the fair September 16. The young horses are nearly all owned in Fort Wayne, and as this is the first colt race on record here it will prove a great card.

Rockhill Bros. & Fleming, Fort Wayne, enter B. F. Mollie Russell, by Mambrino Russell, dam by Alexander's Abdallah.

Rockhill Bros. & Fleming, Fort Wayne, enter Blk. F. Lotah, by Haw Patch, dam by Kersage.

L. O. Turner, Columbia City, Indiana, enter Henry Esmond, by George Sprague, dam by Goldsmith's Abdallah.

M. G. Traugh, Remington, Indiana, enters G. G. Edward H., by Highland Chief, dam by Highlander Trochok.

Briel & Ortlieb, city, enter Prince Alexander, by Belmont Prince, dam by Abdallah.

O. A. Simons, city, enter B. G. Mambrino Clay, by Anthony Wayne, dam by Mambrino Brave.

L. T. Lintz, city, enters B. C. Lord Belmont, by Belmont Prince, dam by Anthony Wayne.

Knights of St. George.

Last evening M. E. Elliott, of Jackson, Mich., installed "Robin Hood" Lodge No. 216 of the order of Sons of St. George" with thirty-seven charter members and the following officers:

William Geake, worthy president. John T. Leach, worthy vice president.

Henry Smith, worthy secretary. Robert Ogden, worthy treasurer.

Harry Grosvenor, worthy messenger. G. W. Chapman, worthy messenger.

T. J. Baker, worthy inside sentinel. James Mun, worthy outside sentinel.

The new lodge has elegant quarters in the fine hall over Mr. Ogden's store on East Berry street, and all the British-American citizens of Fort Wayne will join it.

Barney O'Connor says that a gushing flow of water has been tapped at the gas well, near Berghoff's brewery. It threatens the shafting and cannot be stopped, so forcible is the flow.

GOOD WORK.

The Democratic County Central Committee Distinguishes Itself.

The democratic county central committee met this afternoon. M. John Wilkinson was in the chair and Louis Fox acted as secretary. The first thing done was to accept the resignation of Mr. Wilkinson and elect Hon. Charles McCulloch, president of the Hamilton National bank, to succeed him. Mr. W. W. Rockhill was chosen secretary and Fred C. Boltz treasurer. Thus the committee is officered in a manner to at once inspire everybody with confidence. A resolution was introduced by Mr. Fox giving each precinct in the city and county a committeeman, increasing the city representation nine votes and giving it some voice in the councils of that body, where heretofore it had a hopeless minority against twenty townships.

The question of representation came up and the city and Wayne township were voted seventy delegates, an increase of thirty delegates, as the city and Wayne township has had forty heretofore. This still leaves the country outside of the city and Wayne township, with 113 delegates. The matter will be further explained to-morrow as this is all that could be learned from the secret session.

PEOPLE AND EVENTS.

"Pook's Manual of Railroads of the United States" for 1886, which has just come from the press, shows that the number of miles of railroad constructed in the United States in 1885 was 3,131, the aggregate mileage for the whole country completed at the close of the year being 128,967; the rate of increase during the year being 2.4 per cent. The mileage, not including elevated roads, from which returns of earnings and traffic operations for the past year were received, equaled 127,110 miles, against 113,173 miles for 1884. The share capital of all the railroads making returns, including the elevated railroads, equaled \$3,817,697,832, against \$3,762,616,686 for 1884; their funded debts, \$3,765,727,066, against \$3,663,115,772 for 1884; their unfunded debt, \$259,108,281, against \$244,636,536 for 1884. The amount of share capital and indebtedness of all the companies for 1885 equaled \$7,842,533,173, against \$7,676,399,054 for 1884, the increase equaling \$166,134,125, the rate of increase being about 2.2 per cent. The earnings of all the roads making returns, including elevated roads, equaled \$772,568,833, against \$770,684,908 for 1884, the increase equaling \$1,883,925, the rate of increase being 0.24 per cent. The earnings from freight equaled \$519,690,932; from passengers, \$200,883,911; from miscellaneous sources, \$1,993,930. The operations and expenses of all the roads for the year equaled \$504,974,902, the net earnings being \$269,493,931. The gross earnings upon the entire capital invested equaled very nearly 10 per cent.; the net nearly 3.5 per cent. The amount of interest paid the past year equaled \$189,421,035, against \$176,694,302 for 1884; of dividends, \$77,672,105, against \$93,244,835 for 1884. The percentage of interest paid on the funded debts of the companies the past year equaled 4.77 per cent., against 4.6 per cent. for 1884. The percentage of dividends paid to the whole share capital equaled 2.02 per cent., against 2.48 per cent. for 1884. The earnings per mile of lines operated the last year equaled \$6.265, against \$5.61 per mile for 1884, the decrease per mile equaling \$398, the rate of decrease per mile being 5.8 per cent. In the meantime the tonnage moved by the railroads has increased about 10 per cent., being 437,040,099 tons in 1885, against 399,074,749 tons in 1884. The movement of tonnage by rail is steadily increasing, there being at the same time a slight falling off in rates, the charge of moving a ton of merchandise one mile in 1885 being 1.037 cents, against 1.124 in 1884. The past year undoubtedly marks a point of lower depression in the earnings of our railroads in ratio to their cost and mileage than is likely to be witnessed for some years to come, the present year showing a considerable improvement upon the past.

AN OLD TRICK.

Burns a Mother and Their Child.

PITTSBURG, Sept. 8.—The residence of L. L. Matthews, checkmaster at the Imperial coal mines, of Moulter, Pa., burned last evening. His wife and two year old child were fatally burned. The fire originated, it is supposed, by Mrs. Matthews attempting to make a fire by the use of carbon oil, as a loud explosion was heard.

IN DEATH'S EMBRACE.

A Man and Woman Found Dead in Bed.

CHICAGO, Sept. 8.—This forenoon a man and woman were found dead in their beds, at 430 Twenty-Sixth street. The indications are that they have been dead at least two days. Investigation is in progress.

Colored Bruisers Have a Fight.

LAFAYETTE, Sept. 8.—"Cyclone Bill" and "Attica Jack," the two stoutest and largest colored men in Indiana, and both workmen in the Lafayette car works, were pitted yesterday in a desperate prize fight that came off two miles below this city, near the junction, on the farm of ex-Commissioner John Opp.

Twenty-one rounds were fought, when the fight was declared a draw, both combatants being battered from head to foot, and in such a weak condition as to be unable to come to the scratch on the twenty-second round. The prize for which they fought was \$25, and the bets among the gamblers aggregated \$3,000, standing \$100 on "Attica Jack" to \$80 on "Cyclone Bill."

Colonel Dudley's Views.

WASHINGTON, Sept. 8.—Colonel Dudley, late of the pension bureau, who has just returned from Indiana, where he looked the political field over very carefully for the republicans, says that in his opinion ex-Senator Joe McDonald will command at the beginning the most strength for senator to succeed Harrison, but that he will be quite likely to meet strong opposition, and the result is quite likely to be that Judge Holman or Congressman Cobb may be elected.

Commemorating the Battle of Chapultepec.

CITY OF MEXICO, Sept. 8.—To-day being the anniversary of the heroic defense of the Castle of Chapultepec during the American war, solemn memorial services commemorating the valor of the cadets who fell there were held at Chapultepec. The president, the cabinet and highest officials of the army and civil service were present. Services were also held in all the churches.

Suicide with Corrosive Sublimate

KOKOMO, Ind., Sept. 7.—Yesterday, about 10 o'clock, Bethlehem Rayl, aged forty-five years, the head of a family, committed suicide by taking corrosive sublimate. It is said that domestic troubles prompted the act. He was a farmer of Ervin township, this county.

The Miners Convene.

INDIANAPOLIS, Sept. 8.—The National Federation of Miners met yesterday afternoon. No special grievances have yet been presented, and it is understood that the scale of prices will not be changed. Developments will depend upon the action of Pennsylvania delegates, yet to arrive.

The B. and O. not Admitted.

NEW YORK, Sept. 8.—Commissioner Fink said this afternoon that there had been no meeting of the Trunk Line committee to-day. He also stated that there was no truth in the report that the Baltimore and Ohio railroad had been admitted to the emigrant pool.

Western Union.

NEW YORK, Sept. 8.—The directors of the Western Union Telegraph company have decided to pass the regular quarterly dividend.

Hon. Wm. Baxter, president of the Wayne agricultural works, died at his residence in Richmond, of typhoid fever, aged sixty-three years.

The eleventh annual reunion of the Eighth and Eighteenth Indiana regiments and First Indiana battery will be held in Wabash, October 19.

Andrew Johnson, of Walcott, Ind., had his right hand shot off and his jaw shattered by the accidental discharge of his gun. He will probably die.

Rev. David Hida, of North Manchester, Wabash county, has been nominated for joint senator by the prohibitionists of Wabash and Kosciusko counties.

The Wabash county agricultural society offers a cash prize for the best looking couple married on the grounds on the third day of the fair to be held next week.

The fourth annual reunion of the society composed of the seventy fifth and one hundred-and-first regiments Indiana volunteers will be held at Anderson Tuesday and Wednesday, October 5 and 6.

A suit was filed in the circuit court at Richmond by Thomas Williams against Aaron Morris, president of the Dorsey reaper company, Milton, Ind., for \$15,000 damages. The complaint alleges false and fraudulent representations in a trade of real estate worth \$12,000, in Washington township, Rush county, for 146 shares of stock in the reaper works.

It is now said that Mrs. Molloy did not attempt suicide last Friday as reported, but ran into the river under the hallucination that she saw her son Frank drowning. The boy, it will be remembered, was drowned recently in Pine lake. She was under the water several times, and declared piteously that she got hold of his hand once, but it slipped from her grasp. She finally succeeded in getting close to shore when she dropped exhausted and unconscious and was only saved from drowning by her head being on the bank.

A reunion of the thirty-second Indiana volunteers was held at Louisville, Ky., Saturday afternoon at National park. The turners of the Ohio valley are in session at Louisville and members of this regiment took advantage of the occasion to hold a reunion. Many Kentucky soldiers were on hand to receive them warmly, Gen. Don Charles Buell being among the number. Yesterday they visited Cave Hill cemetery where the bones of many of their brave comrades are resting. They were received at the cemetery by General Buell and the entire party photographed in a body. This regiment crossed into Kentucky from Indiana during the war, and fought the first battle of any importance on Kentucky soil.

That Passenger Pool.

CHICAGO, Sept. 8.—The committee of Southwestern managers was again in session to-day discussing the gross money passenger pool and are apparently as wide apart as ever. The Wabash still insists on averaging up other years than those proposed by the committee for a division of business, and there is a wide difference of opinion between the Alton and Burlington about the pooling of Denver and other traffic west of the Missouri river. No report was agreed upon.

Toledo, Sept. 8.—No markets to-day on account of the Tri state fair.

A Fact Worth Knowing

It is an undisputed fact that in Fort Wayne and in fact the northern part of Indiana there is but one really high-class merchant tailoring establishment, and all gentlemen of refinement who are posted in matters of dress will recognize at once to whom we refer, viz.: Mr. Joe Clark, of this city. As a rule, merchant tailors who call themselves artists do not comprehend the meaning of the word as applied to tailoring, and the patrons of this house the coming season will find a marked improvement in the artistic finish of their garments. In fact the garments fashioned from this house are in accordance with advanced ideas and modern requirements.

The line of elegant suitings, woollens, worsteds and special goods which he carries is unsurpassed, and the style he imparts to a garment carries with it the air of superiority at a glance.

It is a fact that the quiet elegance pervading his chambers gives tone and style to a gentleman who wishes to possess the minor consciousness of being well dressed without showing it in an ostentatious manner; even the accessories surrounding him, while enduring the ordeal of having his measurements recorded, breathe refinement and cultivated taste.

BREWERS IN CONVENTION.

They Discuss the Prohibition Movement.

NIAGARA FALLS, N. Y., Sept. 8.—At the brewers national convention the committee reporting on the growth of prohibition in Georgia and Virginia said: "From our correspondents in these states we learn that the success of the prohibition movement is mainly due to the desire on the part of the democracy to keep the colored population within certain moral bounds. It is claimed that for the exclusively white population southern democracy would not dream of pressing such laws. The report of the advisory committee goes into a discussion of the temperance school book question, which it treats with some rigor." "Through the influence," it says, "of the prohibition element, a compulsory temperance education law was passed in the following states, before the beginning of the year 1885: New Hampshire, Vermont, Michigan, New York, Rhode Island, and in 1885, Pennsylvania, Massachusetts, Oregon, Alabama, Maine, Kansas, Nebraska, Wisconsin, Missouri, and North Carolina. The mere introduction of the best books in our public schools and the spreading of proper views on the abuse of alcohol, would probably find no objectors among the liberal brewers; nay, they would concur in and assist such an educational movement. It is evident however, from the action and tenor of the advocates that the whole movement is controlled and manipulated by the bitterest prejudices. Under the thin disguise of public educational need and of scientific presentation of the subject, such extreme statements were made that practically they amounted to falsehoods. The United States Brewer's association, through its proper officers, investigated the matter. Many of the text books were procured and correspondence was opened relative to the subject with trustworthy members in the states where such books were used. The conclusion arrived at from a thorough review of the proceedings and a careful perusal of this preponderance, is that up to the present time, the resultant evil is not so great as former information seemed to indicate. Generally speaking the errors were not so glaring as to demand vigorous action."

Dr. Mendenhall Goes up Higher.

INDIANAPOLIS, Sept. 8.—Dr. Mendenhall, of the scientific department of the signal service bureau, and who spent three years in organizing the polytechnic department of the old university of Japan at Tokio, has accepted the presidency of the Rose Polytechnic institute, of Terre Haute, Ind. Dr. Mendenhall succeeds the late Dr. Charles O. Thompson.

INKLINGS OF NEW YORK.

Ninnies Who Value Themselves on Their Idleness.

(Special Correspondence.)

New York, Sept. 6.—The assertion is continually made that we have no leisure class in this country. But we certainly have in this city, though the class may not be as large as in the leading capitals of the old world. Its members are constantly and rapidly growing, and part of the growth is not a beautiful sign in a democracy, the true prosperity of which rests on labor, and where every worthy citizen ought to do some kind of work. There are thousands here who delight to speak of themselves as gentlemen of leisure, the idea of gentlemen being associated in their minds with sufficient money to preserve them from the need of any sort of occupation. It is this financial idea which prevents them from understanding the true character of the order to which they imagine they belong.

At some of the clubs, notably at the Union, the Knickerbocker, the Calumet and the St. Nicholas, you will always find during the season any number of fashionably dressed ninnies who value themselves on their idleness. They are, for the most part, the inheritors of wealth, which they never could have earned, or the sons of rich men who have given them an allowance. It is repulsive to hear them talk. They positively think it "vulgar"—this word is always on their lips—to earn money by any kind of work, although they consider it quite the thing to win money by letting at cards or billiards, or on horse or yacht races. Their conversation, if one may call it such, is as empty and frivolous as possible. It is all about games and sports, eating and drinking, London and Paris, Newport and Monaco, with an endless deal of twaddle, interspersed with drawn, diluted oaths and puffs of cigarettes. Their morals are manifestly as loose as their manners are stiff. They regard the cut and style of their clothes, the ability to distinguish between Chateau Lafitte and Chateau Margaux, the mode of entering a drawing room, the proper way to dine, as the most important things in the world. Their life is a monotonous round of self-indulgence and dissipation. They usually spend little more than two or three months out of the twelve here, they go south in winter, to the mountains, the seashore or Europe in summer; they are always coming or going, telling what they have done or will do. How can they subsist on such thin diet? How can they preserve even a semblance of sanity by following the trend-mill round of fashion?

All men of leisure are not so empty-headed and empty hearted as these. A good many business men now retire after they have made a fortune and reached 50 or 60. They may continue to do something. All capitalists find employment in looking after capital, but they study pictures, read a number of books, travel much, and enjoy various intellectual pleasures. This is shown by the fact that almost half of the 1,100 members of the stock exchange are temporarily or permanently abroad. A goodly number of professional men abate their zeal now-a-days when they have acquired a handsome independence. Indeed, the withdrawal of men in various grades of life to privacy or semi-privacy is at present quite common, and is beneficial to them as well as to the community. This class is totally different from the brainless dandies and madish prodigals of the clubs. There is a marked difference between mere idling and

resting after years of hard labor. In twenty years more our leisure class will probably be three-fold what it is to-day. Americans work too hard and too long; those who live here have found it out and are trying to correct the habit. The beautiful custom will spread, and I am very glad of it. It can no more be said, here at least, that we have not time to examine public questions and political bearings. The metropolis has begun to stop for breath, and the sooner other cities follow the better it will be.

A car loaded with whisky jumped the track in the Wabash yards at Lafayette yesterday delaying the east bound train forty minutes. There was no apparent cause for the freak and the only theory that can be advanced is the ardent desire the whisky had to locate in Lafayette. Mr. Sale is a brother of Mr. John Sale, of West Wayne street, and the latter went to Bluffton this morning in response to a telegram announcing the sad event. In a great many cities the management of theatres have published cards stating that no person arriving after the first act of the play has commenced will be allowed to take his or her seat until the end of the first act, thereby assuring to early comers absolute freedom from annoyance. If managers could invent some process to keep people from spoiling the last act by jumping up and rushing out just before its conclusion a long felt want for a suffering public would be supplied.

The Whitewater Valley road seems to be under a cloud. One of the bridges is gone and only a portion of the road is operated, and the property seems to be readily decreasing in value. A FEW FACTS.

Directed at Capt. Charley Reese's Old Regiment.

The Indianapolis Journal says: Your Logansport correspondent, in Friday's Journal said: "Records show that in killed and wounded the regiment (Twenty-seventh Indiana) lost more than, in proportion to the number that enlisted, than any regiment in the service during the war." This assertion is erroneous, as the following figures, taken from the records of the war department, prove.

They relate to the five Indiana infantry regiments in the army of the Potomac:

Regiment.	Total Mustered.	Killed and Died of Wounds.	Percent Killed.
Seventh.	1,833	109	5.9
Fourth.	1,321	121	9.1
Nineteenth.	1,522	174	11.4
Twentieth.	1,556	144	9.2
Twenty-seventh.	1,085	154	14.1

The Twenty-seventh Indiana having lost 616 wounded, making the total killed and wounded 770 out of 1,085, is entitled to the credit of the bloodiest record.

The transcript above was made by John Brenehan, of the pension department, Washington, D. C.

SKIN TORTURES II

—AND—
BLOOD HUMORS II

Humidifying eruptions, itching and burning skin tortures, lousiness, sores, and every species of itching, scaly, pimply, indurated, scrofulous and contagious diseases of the blood, skin and scalp, with loss of hair, from infancy to old age, are positively cured by Cuticura, the great skin cure, and Cuticura Soap, an exquisite Skin Beautifier, externally, and Cuticura Resolvent, the new Blood Purifier, internally.

COVERED WITH SORES.

I have been afflicted since last March with a skin disease the doctors called Eczema. My face was covered with sores and sores, and the itching and burning were almost unbearable. Seeing your Cuticura Remedies so highly recommended, concluded to give them a trial, using the Cuticura and Cuticura Soap externally, and Resolvent internally, for four months. I call myself cured, in gratitude for which I make this public statement. Hope in another week to have my ears, neck, and the other part of my face cured.

MRS. LARA A. FREDERICK.
Broad Rock, Conn.

SCALP, FACE, EARS AND NECK.

I was afflicted with Eczema on the Scalp, Face, Ears and Neck, which the druggist, where I got your remedies, pronounced one of the worst cases under his notice. I hope in another week to have my ears, neck, and the other part of my face cured.

120 E. 4th Street, New York.

ITCHING DISEASES CURED.

W. L. HARDIG, Druggist.

CONSTITUTIONAL CATARRH.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system, and every vital force breaks up the most robust of constitutions. Ignored, because but little understood by most physicians, it is often assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is, then, that the original treatment and the terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly relieves the most obstinate symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box Catarrhal Solvent and an Improved Inhaler; price, \$1.

KIDNEY PAINS,

And that waste, lifeless all-gone sensation ever present with those of inflamed Kidneys, Weak Back and Lame, Aching Hips and Stiff Joints, impotency, are relieved in one minute and speedily cured by the Cuticura Anti-Pain Plaster, a new, original, elegant and infallible antidote to pain and inflammation. At druggists, 25c.; five for \$1.00; or of Potter Drug Co., Boston.

A Queer Incident of the Earthquake That Lightens the Heart of an Army Officer's Daughter.

The Catholic Knights Have a Banquet and River Excursion at Evansville.

IT WAS STRANGE.

A Young Lady Recovers Her Voice During the Earthquake.

NEW YORK, Sept. 8.—A Savannah, Georgia, special says: "A strange incident of last week's earthquake shock is the recovery of the power of speech by Miss Mamie Martin, daughter of a retired officer of the regular army. At the close of the war her father was put in charge of Fort Pulaski and Jackson, below this city. While at the fort for his daughter had an attack of meningitis, which left her voiceless. She was dumb but had all the other senses. During the excitement of the earthquake shock last Tuesday night, she attempted to call her brother. He was frightened himself when he heard her whisper his name. Since then she has gradually regained her voice and now talks with perfect fluency. City physicians are deeply interested in the case. Their explanation is that recovery is due to the intense mental excitement."

Appeals to the Powers to Protect Bulgaria.

CONSTANTINOPLE, Sept. 8.—The Porte has sent a note to the powers praying them to prevent a foreign military occupation of Bulgaria.

The Catholic Knights.
EVANSVILLE, Ind., Sept. 8.—The fourth Indiana state council of Catholic Knights of America opened yesterday morning with a grand parade, marching through the principal streets to the Church of the Assumption, where high mass was sung by Father E. T. Bacon, and a sermon delivered by Father Flowers. After mass the delegates marched to Assumption hall, and the council convened. A large number of delegates from various portions of the state are in attendance. They were treated to an excursion and banquet on the steamer Idlewild last evening.

IN THE COURTS.

The LaGrange County Political Mass in the Hands of Uncle Sam.

Mr. Otis L. Ballou, the anti-Lovely politician of LaGrange, has instituted suit in the federal court against Postmaster Frank Snyder for the recovery of a letter sent to "O. L. Ballou, chairman of the LaGrange county democratic committee." It seems Snyder recognized John Kimmel, a Lovely man, as chairman, and to him sent all the democratic mail. At that time Ballou had claims on the position and there was a contest for the honor, which is much covered in that village of faction fights. Ballou sued for the letter returned to and \$100 damages from Snyder. This takes the matter into the United States courts and the rival statesmen will have war to the end.

Special Delivery.

The new law extending the special delivery system to all postoffices in the United States will go into effect Oct. 1. Under this law every postmaster will be held responsible for the prompt delivery of all mail matter bearing a special delivery stamp received at the office between the hours of seven a. m., and seven p. m., Sundays excepted. The postmaster will not be required to deliver mail beyond the distance of a mile from the postoffice. The postmaster will be at liberty, however, to make such delivery beyond the limits prescribed, for which he is to receive compensation. Parcels bearing the special delivery stamp must also bear the usual postage stamp or such matter will otherwise be held at the office for postage.

The case against Charley Strick for numerous assaults has been dismissed by Justice Ryan.

CROSSED HIS SKULL.

Ferdinand Shust, a Prominent Young Man, is Instantly Killed.

Ferdinand Shust was possibly twenty-five years of age. About two years ago he married a young lady at Rochester, N. Y., and began life with the brightest prospects. He was then assistant ticket agent to Mr. J. M. McConnell, at the Wabash depot. A month ago he quit and entered the service of A. D. Crosser, at the Kerr-Murray foundry. This afternoon he was assisting a gang of men in putting up a huge iron tank. Suddenly the heavy iron toppled and an immense plate fell on Shust, striking him to the floor and crushing the right side of his skull to a jelly. As soon as the horrified workmen could, the iron was lifted from his lifeless body and the remains were sent to Potter's mortuary room for burial preparation. Shust's young wife fainted away when the awful news was conveyed to her and although neighbors are trying to soothe her grief, she is almost a maudlin. Mr. Shust lived on West Jefferson street, and was well known and liked by everybody. There were three or four other workmen injured, one of them named Meak, quite severely. He lives on Hoffman street.

GET AT IT.

A Week of Sport and Rare Sights Assured Us.

Next week is fair week and everybody wants to know and recognize that fact. This year the directors are experimenting on an increase of premiums and larger purses for racing. It will rest with the citizens of Fort Wayne and Allen county whether the fair this year shall prove a success or not. If the efforts of the directors are not sustained by the patronage of the citizens it is doubtful if in coming years Allen county will have a fair association. The books of the secretary are now open for entries and everybody is invited and expected to enter any article or animal worthy of exhibition. The merchants should at once make application for space in the different halls to exhibit their goods. The owners of stock should apply for stall room. In fact, let every one get ready either to exhibit or attend.

YOUNG RACERS.

Seven Entries for the Colt Race to be Trotted at the Fair.

The following is a list of the entries for the three-year-old colt race to be trotted at the Inter-State fair September 16. The young horses are nearly all owned in Fort Wayne, and as this is the first colt race on record here it will prove a great event.

Last evening M. E. Elliott, of Jackson, Mich., installed "Robin Hood Lodge No. 216 of the order of Sons of St. George" with thirty-seven charter members and the following officers: William Geake, worthy president. John T. Leach, worthy vice president.

Henry Smith, worthy secretary. Robert Ogden, worthy treasurer. Harry Grosvener, worthy messenger. G. W. Chapman, worthy messenger. T. J. Baker, worthy inside sentinel. James Mun, worthy outside sentinel. The new lodge has elegant quarters in the One hall over Mr. Ogden's store on East Derry street, and all the British-American citizens of Fort Wayne will join it.

Barney O'Connor says that a gushing flow of water has been tapped at the gas well, near Rorhoff's brewery. It threatens the shafting and cannot be stopped, so terrible is the flow.

GOOD WORK.

The Democratic County Central Committee Distinguishes Itself.

The democratic county central committee met this afternoon. M. John Wilkinson was in the chair and Louis Fox acted as secretary. The first thing done was to accept the resignation of Mr. Wilkinson and elect Hon. Charles McCullough, president of the Hamilton National bank, to succeed him. Mr. W. W. Rockhill was chosen secretary and Fred C. Boils treasurer. Thus the committee is organized in a manner to at once inspire everybody with confidence. A resolution was introduced by Mr. Fox giving each precinct in the city and county a committee man, increasing the city representation nine votes and giving it some voice in the councils of that body, where heretofore it had a hopeless minority against twenty townships.

The question of representation came up and the city and Wayne township were voted seventy delegates, an increase of thirty delegates, as the city and Wayne township has had forty heretofore. This still leaves the country outside of the city and Wayne township, with 113 delegates. The matter will be further explained to-morrow as this is all that could be learned from the secret session.

"Poon's Manual of Railroads of the United States" for 1886, which has just come from the press, shows that the number of miles of railroad constructed in the United States in 1885 was 3,131, the aggregate mileage for the whole country completed at the close of the year being 124,967; the rate of increase during the year being 2.4 per cent. The mileage, not including elevated roads, from which returns of earnings and traffic operations for the past year were received, equaled 121,110 miles, against 118,173 miles for 1884. The share capital of all the railroads making returns, including the elevated railroads, equaled \$3,817,807,832, against \$3,762,616,686 for 1884; their funded debt, \$3,756,727,066, against \$3,663,115,772 for 1884; their unfunded debt, \$259,108,281, against \$244,636,598 for 1884. The amount of share capital and indebtedness of all the companies for 1885 equaled \$7,342,583,175, against \$7,676,399,051 for 1884, the increase equaled \$166,134,125, the rate of increase being about 2.2 per cent. The earnings of all the roads making returns, including elevated roads, equaled \$772,568,833, against \$770,681,908 for 1884, the increase equaled \$1,886,925, the rate of increase being 0.24 per cent.

The earnings from freight equaled \$519,000,932; from passengers, \$200,351,911; from miscellaneous sources, \$53,903,032. The operations and expenses of all the roads for the year equaled \$503,974,902, the net earnings being \$268,593,931. The gross earnings upon the entire capital invested equaled very nearly 10 per cent.; the net nearly 3.5 per cent. The amount of interest paid the past year equaled \$180,121,035, against \$176,691,302 for 1884; of dividends, \$77,672,105, against \$31,244,816 for 1884. The percentage of interest paid on the funded debts of the companies the past year equaled 4.77 per cent, against 4.16 per cent. for 1884. The percentage of dividends paid to the whole share capital equaled 2.02 per cent, against 2.48 per cent. for 1884. The earnings per mile of lines operated the last year equaled \$6,265, against \$5,611 per mile for 1884, the decrease per mile equaled \$658, the rate of decrease per mile being 5.8 per cent. In the movement the tonnage moved by the railroads has increased about 10 per cent, being 137,010,069 tons in 1885, against 124,974,749 tons in 1884. The movement of tonnage by rail is steadily increasing, there being at the same time a slight falling off in rates, the charge of moving a ton of merchandise one mile in 1885 being 1.67 cents, against 1.124 in 1884. The past year undoubtedly marks a point of lower depression in the earnings of our railroads in ratio to their cost and mileage than is likely to be witnessed for some years to come, the present year showing a considerable improvement upon the past.

AN OLD TRICK.

Burns a Mother and Their Child.

PITTSBURG, Sept. 8.—The residence of L. L. Matthews, checkmaster at the Imperial coal mines, of Monaca, Pa., burned last evening. His wife and two year old child were fatally burned. The fire originated, it is supposed, by Mrs. Matthews attempting to make a fire by the use of carbon oil, as a lamp explosion was heard.

Colored Bruisers Have a Fight.

LAFAYETTE, Sept. 8.—"Cyclone Bill" and "Atlas Jack," the two stoutest and largest colored men in Indiana, and both workmen in the Lafayette coal works, were pitted yesterday in a desperate prize fight that came off two miles below this city, near the junction, on the farm of ex-Commissioner John Opp.

Twenty-one rounds were fought, when the fight was declared a draw, both combatants being battered from head to foot, and in such a weak condition as to be unable to come to the scratch on the twenty-second round. The prize for which they fought was \$25, and the bets among the gamblers aggregated \$8,000, standing \$100 on "Atlas Jack" to \$80 on "Cyclone Bill."

Colonel Dudley's Views.

WASHINGTON, Sept. 8.—Colonel Dudley, late of the pension bureau, who has just returned from Indiana, where he looked the political field over very carefully for the republicans, says that in his opinion ex-Senator Joe McDonald will command at the beginning the most strength for senator to succeed Harrison, but that he will be quite likely to meet strong opposition, and the result is quite likely to be that Judge Delmon or Congressman Cobb may be elected.

Andrew Johnson, of Walcott, Ind., had his right hand shot off and his jaw shattered by the accidental discharge of his gun. He will probably die.

Rev. David Hild, of North Manchester, Wabash county, has been nominated for joint senator by the prohibitionists of Wabash and Kosciusko counties.

The Wabash county agricultural society offers a cash prize for the best looking couple married on the grounds on the third day of the fair to be held next week.

The fourth annual reunion of the society composed of the seventy-fifth and one-hundred-and-first regiments Indiana volunteers will be held at Anderson Tuesday and Wednesday, October 6 and 7.

A suit was filed in the circuit court at Richmond by Thomas Williams against Aaron Morris, president of the Dorey reaper company, Milton, Ind., for \$15,000 damages. The complaint alleges false and fraudulent representations in a trade of real estate worth \$15,000, in Washington township, Elkhart county, for 146 shares of stock in the reaper works.

It is now said that Mrs. Melloy did not attempt suicide last Friday as reported, but ran into the river under the hallucination that she saw her son Frank drowning. The boy, it will be remembered, was drowned recently in Pine lake. She was under the water several times, and declared pitifully that she got hold of his hand once, but it slipped from her grasp. She finally succeeded in getting close to shore when she dropped exhausted and unconscious and was only saved from drowning by her head being on the bank.

A reunion of the thirty-second Indiana volunteers was held at Louisville, Ky., Saturday afternoon at National park. The turnouts of the Ohio legion are in session at Louisville and members of this regiment look advantage of the occasion to hold a reunion. Many Kentucky soldiers were on hand to receive them warmly. Gen. Don Charles Buell being among the number. Yesterday they visited Cave Hill cemetery where the bones of many of their brave comrades are resting. They were received at the cemetery by General Buell and the entire party photographed in a body. This regiment crossed into Kentucky from Indiana during the war, and fought the first battle of any importance on Kentucky soil.

That Passenger Pool.

CHICAGO, Sept. 8.—The committee of Southwestern managers was again in session to-day discussing the money passenger pool and apparently as wide apart as ever. The Wabash still insists on averaging up other years than those proposed by the committee for a division of business, and there is a wide difference of opinion between the Alton and Burlington about the pooling of Denver and other traffic west of the Missouri river. No report was agreed upon.

A Fact Worth Knowing.

It is an undisputed fact that in Fort Wayne and in fact the northern part of Indiana there is but one really high-class merchant tailoring establishment, and all gentlemen of refinement who are posted in matters of dress will recognize at once to whom we refer, viz: Mr. Joe Clark, of this city. As a rule, merchant tailors who call themselves artists do not comprehend the meaning of the word as applied to tailoring, and the patron of this house the coming season will find a marked improvement in the artistic finish of their garments. In fact the garments fashioned from this house are in accordance with advanced ideas and modern requirements. The line of elegant antiques, scrolls, wovelets and special goods which he carries is unsurpassed, and the style he imparts to a garment carries with it the air of superiority at a glance.

It is a fact that the quiet elegance pervading his chambers gives tone and style to a gentleman who wishes to possess the minor consciousness of being well dressed without showing it in ostentatious manner; even the accessories surrounding him, while endearing the effect of his garments, are so tastefully recorded, treated refinement and cultivated taste.

BREWERS IN CONVENTION.

They Discuss the Prohibition Movement.

NIAGARA FALLS, N. Y., Sept. 8.—At the brewers national convention the committee reporting on the growth of prohibition in Georgia and Virginia said: "From our correspondents in these states we learn that the success of the prohibition movement is mainly due to the desire on the part of the democracy to keep the colored population within certain moral bounds. It is claimed that for the exclusively white population southern democracy would not dream of pressing such laws. The report of the advisory committee goes into a discussion of the temperance school book question, which it treats with some rigor. 'Through the influence,' it says, 'of the prohibition element, a compulsory temperance education law was passed in the following states, before the beginning of the year 1885: New Hampshire, Vermont, Michigan, New York, Rhode Island, and in 1886, Pennsylvania, Massachusetts, Oregon, Alabama, Maine, Kansas, Nebraska, Wisconsin, Missouri, and North Carolina. The more introduction of the best books in our public schools and the spreading of proper views on the abuse of alcohol, would probably find no objectors among the liberal brewers; nay, they would concur in and assist such an educational movement. It is evident however, from the action and tenor of the advocates that the whole movement is controlled and manipulated by the bitter prejudices. Under the thin disguise of public educational need and of scientific presentation of the subject, such extreme statements were made that practically they amounted to falsehoods. The United States Brewer's association, through its proper officers, investigated the matter. Many of the text books were procured and correspondence was opened relative to the subject with trustworthy members in the states where such books were used. The conclusion arrived at from a thorough review of the proceedings and a careful perusal of this preposterous, is that up to the present time, the resultant evil is not so great as former information seemed to indicate. Generally speaking the errors were not so glaring as to demand vigorous action."

Dr. Mendenhall Goes up Higher.

INDIANAPOLIS, Sept. 8.—Dr. Mendenhall, of the scientific department of the signal service bureau, and who spent three years in organizing the polytechnic department of the old university of Japan at Tokyo, has accepted the presidency of the Rose Polytechnic institute, of Terre Haute, Ind.
